DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Monday, 30 September 2024 at 04:33 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Wet and occasionally windy weather for much of the UK will help to ensure air pollution levels remain Low across the country.

Tomorrow: Staying breezy and also wet for some eastern parts, limiting the build-up of any pollutants. Air pollution levels are forecast to be Low across the UK.

Outlook: While drier and more settled weather is expected, little change is currently forecast to the air pollution levels through this period, persisting at Low.
